PROGRAM

The Association for protection of the workers' rights, Glasen Tekstilec - Stip organizes for the fifth year in a row an event **Textilijada**, which will be held in Stip in the period from **07 - 09 October 2021**.

Over the past four editions, the **Textiliada** is the largest event of its kind in the region. It achieves its mission to encourage young people, workers to be involved in decision-making processes. Through events of a social and artistic nature, its aim is to raise public awareness of the need to support the improvement of workers' rights.

The motto of this year's event is "Reporting and the roles in the fight for workers' rights". This year's Textile Festival aims to open the topic of respect for workers' rights and the standard of textile workers. Therefore, this year we will focus on the role of local and national media, as well as foreign fashion brands for which our textile workers sew fashion pieces. Through dialogue, as every year with decision makers, institutions, media, brands, workers, to prioritize problems and together achieve positive results. This is especially important for the economy and the standard of the citizens and the well-being of the employees in the private sector because the future and the economy of a country depend on them.

Our role as legislators, implementers of laws and policies, brands, media and associations is important for promoting the rights and standards of a huge group of citizens.

The fifth edition of the **Textiliada** is supported by: the Olof Palme International Center, The Kvinna till Kvinna Foundation and the Swedish International Development Cooperation Agency (SIDA).
